

Rakshith B Gowda

👤 Profile

Dynamic and motivated recent graduate with a Bachelor of Engineering and hands-on experience in software development. Currently honing my skills as a Java Full Stack React Developer through a comprehensive training program at Cognizant. Proficient in backend development with Java, Spring Boot, and microservices, along with expertise in React. Passionate about learning industry best practices and contributing innovative solutions within the Information Technology sector.

📁 Employment History

Programmer Analyst Trainee at Cognizant, Hyderabad

December 2024 — Present

Programmer Analyst Trainee Role

- **Backend:** Build scalable services with Java, Spring Boot, and microservices.
- **Frontend:** Develop interactive React interfaces integrated with backend APIs.
- **Analysis:** Apply Data Structures, Statistical Analysis, and algorithms for efficient solutions.

🎓 Education

Bachelor of Engineering, ACS College of Engineering, Bengaluru

November 2020 — June 2024

Graduated with Computer Science Degree

10th, St. Sophia High School, Bengaluru

April 2018

12th , BASE PU, Bengaluru

May 2020

★ Project

NGO Website Project

December 2024 — March 2025

- **Full-Stack Implementation:** Developed a comprehensive website for an NGO, utilizing Spring Boot for backend services and React JS for frontend integration.
- **Microservices Architecture:** Designed and implemented a scalable microservices architecture, ensuring efficient and modular system performance.
- **RESTful APIs:** Built and consumed RESTful APIs to seamlessly connect the frontend and backend components.
- **Responsive Design:** Engineered interactive and user-friendly interfaces with React JS that adapt seamlessly across devices.
